

Summer Assignment for AP European History

Mandatory Assignments:

1. This summer you will choosing between *A World Lit Only By Fire*, by William Manchester* and *The Prince*, by Machiavelli* to read before the beginning of class in the fall. (I will not be testing this, but I do find that students that have read one of these two books have a dramatically better chance at understanding the first two significant units in AP European History)
2. You will be memorizing a map of Europe(countries), and will be tested on it the first day of school. Find a map online to help you study. The website lizardpoint.com is helpful to quiz yourself. ***You will not be receiving anything from me regarding this assignment other than these instructions. You must go online and do this on your own.***

Optional Books for deeper understanding

Utopia, by Thomas More

Fahrenheit 451, by Ray Bradburry

Animal Farm, by George Orwell*

Night, by Ellie Wiesel*

Sophie's World, by Jostein Gaarder

Guns, Germs, and Steel, by Jared Diamond

Day the Universe Changed, by James Burke

*books that I have copies of on file

**most of the books on this list can be found for free in a number of electronic places, including iBooks, some books can be bought and I would appreciate if you did buy the book that you could donate it back for someone else next year.

***Any book you would like to read that is not on this list must be approved by me in person.
